PROFESSIONAL SUMMARY

ReactJS Developer with **4.5+ years of experience** building scalable enterprise applications. Skilled in translating complex business workflows into intuitive, user-friendly UI solutions using **React, Redux, and modern UI frameworks**. Proficient in **Figma**, with the ability to collaborate on UI/UX design and translate design concepts into functional interfaces. Strong collaborator with experience working closely with stakeholders in Agile environments.

TECHNICAL SKILLS

ReactJS, Redux, HTML, Tailwind CSS, Material UI, Leaflet, Recharts, GitLab, Bitbucket, Jira, Figma

EXPERIENCE & PROJECTS

Web Applications for Automobile Processes | Feature owner and Developer Jan 2024 – Present

- Worked on 14+ internal and dealer-facing applications supporting delivery tracking, vehicle registration, truck invoice adjustments, price quote management, and aftermarket operations.
- Partnered closely with business teams to gather, refine, and prioritize requirements. Translated business workflows into functional requirements and user-friendly application flows. Coordinated task planning and execution using JIRA ensuring timely delivery across multiple workstreams.
- Acted as a bridge between business stakeholders and development teams to clarify scope and manage dependencies.

Web Application for Warehouse Activities | UI Developer Jan 2023 - Dec 2024

- Developed a standalone application, implementing a map module with Leaflet for IoT device tracking and floorplan mapping.
- Created floorplans with interactive maps incorporating latitude and longitude data.
- Enabled floorplan mapping, device configuration, edits, deletions, and real-time status reporting for RFID readers and devices.
- Performed CRUD operations across related screens, assigning triggers, alerts, notifications throughout the modules.
- Utilized redux to manage and maintain complex application states efficiently.

Enterprise Documents and Reports Retrieval | UI Developer Dec 2021 - Nov 2022

- Developed UI screens from scratch using internal CSS components and implemented Redux architecture for state management.
- Enabled document download functionality in various formats (PDF, Excel) and created customer document search for all credit card products.
- Designed complex Report search, Transit Documents and Mortgage Retrieval Document screens with admin-based download rights and implemented comprehensive form validation.
- Responsible for code reviews to ensure quality and consistency across the team.

Internal Dashboard Sept 2021 - Nov 2021

- Utilized Recharts to develop interactive chart screens, including bar charts, doughnut charts, line charts, and combinations, with significant CSS responsibilities.
- Created charts displaying competencies, onboarding processes, mandatory courses, hiring statistics, and other related factors across the account.

Research Intern | IIIT Hyderabad

- Developed a tool using NLP and multilingual translation to translate multiple languages into a desired language.
- Analyzed limitations of the current communication tool to enhance its functionality.
- Successfully executed translations from German, Japanese, Hindi, and Marathi into English.

EDUCATION

St. Vincent College of Engineering and Technology, Nagpur

2017 -2021

- CGPA - 8.5
 - Branch - Information Technology
-
